

Corvette AutoPucks

Lifting Pucks

SKU# 5216374
Corvette Jack Pad Pucks

LOCK-IN STABILITY

Corvette-Specific AutoPuck™ – Perfect Fit, Reliable Stability. Designed specifically for Corvettes, the Corvette AutoPuck ensures a precise and damage-free lift for your high-performance vehicle. Whether used with jacks, stands, or two-post lifts, AutoPucks enhance safety and precision during maintenance. Featuring a secure locking T-slot stem with a silicone O-ring, this model stays firmly in place, preventing slippage or misalignment. This custom design aligns perfectly with Corvette factory jack points, protecting sensitive underbody areas while providing stable, hassle-free lifts. Each set of AutoPucks arrives in a stylish, compact case that keeps them secure and readily accessible, maintaining a tidy workspace.

BUILT TO LAST

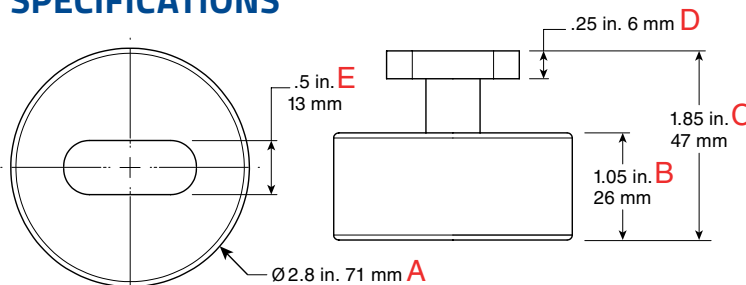

Constructed from Hard Rubber 95A Shore, the Corvette AutoPuck is built for superior durability, resisting both compression and deformation. This rugged rubber offers excellent resilience under heavy loads, making it the ideal material to protect your vehicle's undercarriage from impact and wear. Trust AutoPucks to keep your Corvette safe, stable, and ready for the road. Fits C5, C6, C7, C8, Z06, & ZR1.

FEATURES

- Hard Rubber 95A Shore design won't harm the vehicle's metal but is strong enough to support it.
- Not compatible with 2006-2012 C6 Z06, ZR1, or Grand Sport
- Designed for Corvette models C5/C6/C7/C8/Z06/ZR1
- Comes in a compact carrying case
