6-Sided Cutting Tips

Ranger's 6-sided carbide cutting tips are the [best in the brake lathe business](#). Our carbide cutting tools come as part of a cutting adapter package. This package is included with your purchase of a Ranger brake lathe. Remember to only use genuine Ranger brand carbide bits that are proven to last longer than their cheaper-built, generic counter parts.

Features

- 10 per pack
- 2-screw tips for use on rake tool holders
- Each insert features 6 cutting edges
- Used for resurfacing cast iron drums and rotors
