

RTJ-1

1-Ton Capacity Telescoping Transmission Jack

SKU# 5150404

THE ORIGINAL TRANSJAK™ IS STILL THE BEST!

Engineered for stable, controlled drivetrain service, the Ranger **RTJ-1** Transmission Jack delivers dependable lifting performance across a wide range of shop applications. Its two-stage hydraulic design provides extended reach, while the fully adjustable saddle supports accurate alignment during removal and installation. A wide, stable base and smooth mobility help maintain control under load, allowing technicians to position components with confidence. Built from heavy-duty steel and equipped with precision adjustment features, the **RTJ-1** is designed to keep workflow efficient and consistent in high-demand service environments.

FEATURES

- 1 Two-Stage Telescoping Lift
- 2 Fully adjustable universal saddle
 - Dual-axis tilt capability
- 3 Secure chain anchorage system
- 4 Foot-operated hydraulic pump
 - Fine-thread adjustment screws with oversized knobs deliver smooth, accurate saddle positioning
 - Integrated steel roller bearings reduce resistance during saddle adjustment
 - Heavy-duty steel construction
 - Double-sealed hydraulic system
 - Overload protection system
- 5 Wide base with caster mobility and dedicated push/pull handles
