Industrial-Grade, Dual-Shelf Workbench

This industrial-grade, high-performing, dual-shelf workbench features an electrostatic, oven-baked protective powder coating, durable rolled edge construction for superior rigidity and a pair of 3/32" HD rolled edge steel shelves. Each shelf is securely bolted in for maximum rigidity and strength, capable of handling whatever you need stored under your work area.

The true difference in our [workbenches](#), as much as we love to show off our bold look and durable power-coat finish and rugged shelving, is how incredibly well these units stand the test of time. We invite you to find a shop or a friend who uses a Ranger workbench and feel the difference for yourself; there's nothing we can say in words or show you in images that can replace the experience of touching and handling a Ranger workbench.

Features

- Glossy, red finish
- Electrostatic oven-baked powder coat
- Rolled edges for added strength and rigidity
- 5/32" HD rolled edge steel table top
- 3/32" HD rolled edge steel shelves
