Monday - Friday, 7AM to 4:30PM PST

Break Beads, Not Your Back

This optional wheel lift adapts easily to Ranger R980XR and R980AT [tire changers](#), helping reduce workplace fatigue and minimize injuries often associated with the manual handling of heavy wheels and tires. The lever-controlled wheel lift quickly raises your wheel and tire assembly for easy mounting on the tire changer turntable. One-handed operation means the technician's free hand can control the wheel assembly during use. The RWL-150T pneumatic wheel lift handles wheels up to 150 lbs. and takes up minimal space in your shop or garage. Perfect for home and shop use.

Features

- Comes complete with all mounting hardware
- Enclosed lifting carriage and cylinder protect it from dirt and other debris
- Simple operation for raising and lowering the lift
- Offset column gives access to lug nuts and allows unobstructed viewing of work area
- Features air regulator, water filter and lubricator for maintenance free pneumatic operation
- Welded steel construction
- Powder coat finish
